OVERSEAS DEFINED

- Overseas duty is defined as duty performed while assigned outside the 48 contiguous United States. Hawaii and Alaska are considered CONUS for assignment purposes, but, OUTUS for entitlements.

REMOTE/ISOLATED

- Some US duty stations are considered remote (have limited MTF/DTF) and therefore require overseas screening.
- Listed in MILPERSMAN 1300-304

Responsibilities

CO of Transferring Command

- Ensure service member and family members are screened within **30 days** of receipt of orders
 - medical and dental screening NAVMED 1300/1
 - completion of NAVPERS 1300/16
- Send “Report of (Un)Suitability for Overseas Assignment” message based on command review and MTF/DTF recommendation.
- Interim report required at 15 day point and every 30 days until screening is completed.

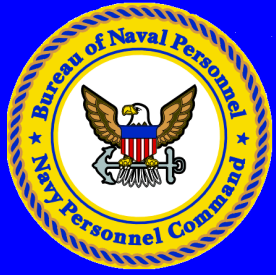

Responsibilities CO of Transferring Command

- If service member or family member is found “unsuitable”, and the transferring CO feels the condition could be waived, it can be requested as a part of the “Unsuitable for Overseas Assignment” message.
- Format is located in MILPERSMAN 1300-304 Exhibits 2, 3, and 4

Responsibilities of Transferring MTF

- Complete Medical, Dental, and Educational screening of service member and family member(s).
- If family members are not co-located with service member, or MTF/DTF is unavailable, members may be screened by TRI-CARE provider and then reviewed by an MTF.
- Medical/Dental issues must be coordinated between transferring and gaining MTF's to determine if condition warrants unsuitability.
- Bottom line: this is a medical recommendation for assignment purposes.

Importance of Screening Promptly

- Using the 30 days for screening still allows the detailers to find a possible fill for an overseas billet without causing a “gap”.
- Exceeding the 30 days more often than not, results in a gapped billet.

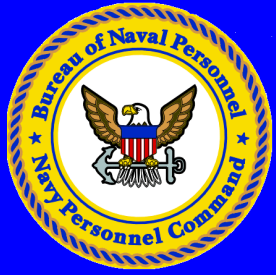

Responsibility of Gaining Command

- Review Overseas Screening
- Issues shall be reported using “Overseas Screening Deficiency Report/Request for Early Return” (MILPERSMAN 1300-306 Exhibit 1)
- Remember - we are not residing in Japan. It’s hard to make a decision in Tennessee without ALL the information.
